

PRODUCT DESCRIPTION

MegaFix® is ICC Brazil's fourth-generation mycotoxin adsorbent. Specially developed for use in acute challenging conditions caused by mycotoxins, such as zearalenone and DON. **MegaFix®** is formulated with probiotics capable of producing enzymes that denature mycotoxins. In its composition, there are chemically activated aluminosilicates, a very high concentration of high resistance β -glucans, and micronized algae. The synergistic effect of these components makes **MegaFix®** the most advanced technological and natural solution in combating and managing the main mycotoxins. **MegaFix®** is especially indicated for pig and piglet diets.

ICC GUARANTEES:

BROMATOLOGICAL ANALYSIS

Crude Protein	Min.	290.0	% (w/w)
β Glucan	Min.	270.0	% (w/w)
Moisture	Max.	90.0	% (w/w)
Ash	Min.	240.0	% (w/w)
pH (sol.10% w/w)	-	5.5 – 7.5	% (w/w)
Viable cells of <i>S.cerevisiae</i>	Min.	2.0×10^7	Per 1g
Bentonite	-	200.0	% (w/w)
Autolised Yeast (sugar cane)	-	749.9	% (w/w)
Calcareous Algae (Lithothamnium)	-	50.0	% (w/w)
<i>Saccharomyces cerevisiae</i>	-	0.01	% (w/w)

DOSAGE:

POULTRY

Preventive 0.75kg/ton. of feed.

Challenge 1.0 - 2.0kg/ton. of feed.

SWINE

Preventive 0.75kg/ton. of feed.

Challenge 1.0 - 2.0kg/ton. of feed.

RUMINANTS & EQUINES

0.75 - 2.0kg/ton. of feed.

Preventive 15g/animal/day.

Challenge 30g/animal/day.

PET

1.0 - 2.0kg/ton. of feed.

AQUA

0.75 - 2.0kg/ton. of feed.

**In case of high levels of mycotoxin, it is advisable to ask for correct dosage to a professional.*

ORGANOLEPTIC ANALYSIS:

Visual Aspect: Light beige to a dark brown color. Fine powder, good fluidity and free of lumps.

Odor: Typical.

PACKING: 25 kg multiwalled paper bags polyethylene liner.

STORAGE: Store in a cool and dry place, free from insects and other pests.

SHELF LIFE: 24 months from production date.

THIS SPECIFICATION SHEET IS ONLY FOR INDICATIVE PURPOSE.
